Biography: Jakob Østervang advises clients within the renewable energy industry, especially regarding wind. Jakob Østervang has particular experience with the financing, purchase and sale of cleantech businesses, including drafting and negotiating contracts. He is highly experienced in wind energy transactions and is lead adviser to MHI Vestas Offshore Wind. He has advised clients in connection with transactions involving wind turbines in Denmark, Germany, Italy, China, the USA, Poland, Estonia, Sweden and the Netherlands. Jakob Østervang is also a member of Bech-Bruun's business team Chinese Desk.

Recent transactional highlights:

- Represented *SE Blue Renewables* in the acquisition of Dong Energy's Danish onshore wind power business, comprising 196MW distributed on 272 wind turbine generators. Transaction value: DKr760 million.
- Represented *SE Vind* in the sale of SE Vind's onshore wind power business, comprising 30.35MW distributed on 13 wind turbine generators.
- Represented *Essex Vindmøller* and other legal entities in the Essex Group in relation to the sale of seven German-based wind farms, comprising 93MW distributed on 55 wind turbine generators.
- Represented *Sydfyns Elforsyning* in relation to the purchase of wind turbines in Germany.
